

Application form associated doctoral researchers

RTG 3012/1 KEMAI offers the possibility to integrate external PhD students into the KEMAI-sphere by becoming an associated doctoral researcher. These PhD students are funded from other sources, but will be treated as equal participants in the RTG:

They have the opportunity to join all seminars and workshops organized by KEMAI and they are invited to participate in the KEMAI summer school. Also, attendance in the biannual meetings is expected, associated PhDs are however exempt from intermediate evaluations if they are not enrolled in the IGradU via their own institute.

The number of associated researchers is limited to eight. Your application will be reviewed by the spokespersons and, in a second step, by one of the principal investigators involved.

To apply, please send this form as well as your CV to kemai@uni-ulm.de

Doctoral researcher family name, given name	
Institute/lab of PhD work	
Preliminary title of thesis	
Starting date of PhD	
Projected end of PhD	
PhD supervisor Family name, given name	
Funding source	
Gender	m <input type="checkbox"/> f <input type="checkbox"/> d <input type="checkbox"/>
